

ABOUT US...

With over 50 years combined experience, Ron and Mark offer you professional, local service in repairing and restoring your photographic equipment.

Both have AAS degrees in **Photo-Technology** and are also photographers - they share your passion for photography and bring that passion into repairing your equipment.

Ron & Mark are members of the Society of Photo-Technoligsts and attend the Society's yearly workshops to update their knowledge in the latest camera models and technology. Resources include an on-line network of over 350 professional camera repair technicians who share ideas and advice.

Both have extensive experience repairing Canon, Nikon, Hasselblad, Mamiya, and other cameras and lenses and they work together to assure you the best service.

We offer you an honest, one-stop solution for your camera repair!

Two convenient locations to serve you:

on our free camera clinics.**

M AINTENANCE

Dirty CCD sensors will cost you time and money, editing out annoying spots from your digital images. Sensors do get dirty and need periodic maintenance. Specks *will show up* on your sensor and as time goes by you'll notice more and more specks appearing.

It's important to have your sensor checked and cleaned on a regular basis to avoid spending your valuable time editing them out of your photos!

We offer an inexpensive solution:

In addition to cleaning the sensor, we will clean the exterior of your digital camera body - including the LCD windows, the Viewfinder Window, the Reflex Mirror and Mirror Housing area - at no additional cost!

We use Sensor Scopes, Speck Grabbers, PecPads & Cleaning Solutions to insure your CCD Sensor is clean.

R EPAIR

We service DSLR cameras and offer affordable CCD sensor cleaning with same-day service. From damaged memory card slots and circuits, to mirror box problems...we repair it all!

Digital camera repairs of SLR cameras are done in-house, including Nikon, Canon, Pentax, Sony and others. All digital camera repairs include a CCD or CMOS sensor cleaning, a general function check as well as external cleaning.

***Do you have a cherished vintage
camera that needs technical or
cosmetic repair?
We'd love to restore your camera!***
